ProMarker - Colour Chart

ProMarker offers an extensive palette of 148 colours, ranging from subtle pastels through to bold vibrant hues. The colours provide for a broad range of creative applications, from design and illustration through to comic art and all kinds of craft-based activities.

Non-Toxic

ProMarkers are certified non-toxic and conform to standard ASTM D-4236

Two Built In Nibs

ProMarkers are twin-tipped, with a fine bullet nib for detailing and a wider, chisel shaped nib for colouring in larger areas. The chisel nib can also provide a further variety of line widths depending on which side is used.

Alcohol Based Ink

Because ProMarker ink is alcohol based, it can be regarded as permanent and will apply to a variety of different surfaces, not just paper and card. ProMarkers can be used on glass, acetate, plastic, ceramic, wood, metal, etc...

Extended Colour Depth

ProMarker colours have a translucent quality and can be layered to achieve varying depth and opacity. Going over the same spot creates a darker tone of the same colour, enabling a versatile range of shading effects.

Fully Blendable

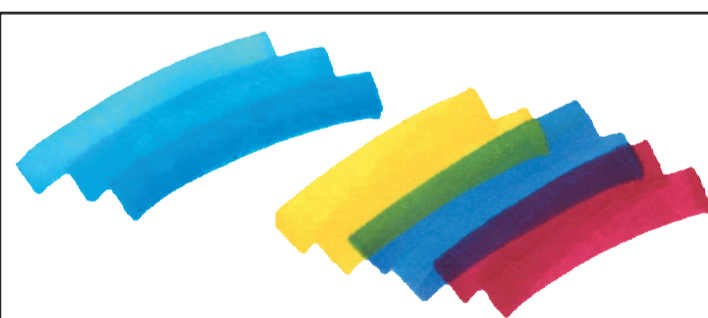

It's possible to overlay different ProMarker colours to produce new colours and, depending on how wet the ink is, smooth transitions can be achieved. A special ProMarker Blender is available separately - this can be used to soften and merge colours together.

High Quality, Dye-Based Colour

The colour dyes used in ProMarkers ensure even colour lay down, with outstanding vibrancy and tonal variation. Unlike ordinary felt tipped pens or low grade markers, ProMarker colour appears perfectly even, with no unsightly streaking.

A range of sets is also available

Creative Tip...

ProMarker inks are translucent, so the more you apply the deeper the colour. Add shade and depth to your work, simply by applying ink in layers. Or overlay different colours to produce new colours.

Fine Liners

Letraset Fine Liners take care of all your outlining and detail work. They contain water-based, pigmented inks - so they won't bleed into alcohol based marker inks. 4 different line widths are available.

Pads

Letraset offer a range of high quality pads. The original and best bleedproof pad has been designed to give optimum performance with Markers, which means that:

- The colour will not dull when it dries,
- You won't waste the next sheet in the pad, and
- The colour will not feather causing fuzzy edges to your work.

Each pad contains 50 Sheets - available in A4, A3, A2.

Storage

With a Letraset Wallet you can customise your own pallet. It holds up to 24 Markers in separate pouches, so you can build up the range of colours that suits you.

The Marker Organiser holds up to 12 Markers. Organise your ProMarkers and keep your desk tidy with this modular solution.

Letrajete Air

Create subtle graduations and soften hard edges, or use stencils for fantastic effects. The Letrajete Air attaches easily to your ProMarkers for quick and convenient airbrushing. Change colours quickly and easily with no mess by simply slotting in a different colour marker.
